Ce recueil complète l'ouvrage publié sous le titre :

TERMINOLOGIE DE LA DANSE CLASSIQUE,
description des Pas et des Termes usuels,
analogies, différences et notions générales.

par les Editions Amphora, Paris 1987.

Il y a quelque 25 ans, à l'Ecole Supérieure d'Etudes Chorégraphiques, je suivais avec passion le cours de M. Edmond Linval sur *les Principes et la Terminologie de la Danse Classique*. Le goût qu'il nous en a donné ne m'a plus quitté depuis lors.

La découverte, l'apprentissage et l'utilisation de la Cinétographie Laban m'offrant ensuite un moyen facile et concret d'analyse de ses pas, positions et mouvements, n'ont pu que confirmer tout à la fois la richesse et la simplicité du vocabulaire de la Danse Classique.

Ce recueil contient donc une liste alphabétique des pas de la Danse Classique, transcrits en Cinétographie Laban (sans toutefois prétendre en présenter un répertoire complet).

Le lecteur de l'ouvrage *Terminologie de la Danse Classique* (réf. p.3) trouvera dans le présent recueil des cinétogrammes qui accompagneront et éclaireront les descriptions contenues dans le livre, de même que le lecteur de ce recueil pourra trouver intéressant de se référer à la *Terminologie de la Danse Classique* pour y chercher l'exposé des termes en usage de nos jours, exposé qui s'appuie sur une référence significative des mots utilisés et donne de ceux-ci une description explicite.

J.CH.

The first part of the report discusses the general situation of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The second part of the report deals with the financial position of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The third part of the report deals with the social and economic conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The fourth part of the report deals with the political situation of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The fifth part of the report deals with the cultural and educational conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The sixth part of the report deals with the health and medical conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The seventh part of the report deals with the housing and urban planning conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The eighth part of the report deals with the transportation and communication conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The ninth part of the report deals with the energy and power conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

The tenth part of the report deals with the environment and natural resources conditions of the country and the progress of the work done during the year. It also mentions the various committees and their work.

Les positions, exercices et pas de danse sont notés de la manière la plus simple : quelques détails stylistiques ont été parfois ajoutés par souci de précision, mais ils sont réduits au minimum pour la commodité du lecteur.

Les pas et exercices ont été notés à partir d'une exécution de la jambe droite. Les signes entre parenthèses, placés au-dessous des cinétogrammes, indiquent les autres directions dans lesquelles peuvent s'effectuer les gestes de la jambe libre exclusivement.

Les indications des variantes possibles d'exécution des pas et exercices décrits dans le texte ont été ajoutées dans la mesure où elles ne surchargent pas le dessin ; elles ne sont cependant pas toujours notées, ce qui dépassait le cadre de ce glossaire.

Les indications de port de bras sont réduites au strict minimum et n'offrent qu'une des variantes possibles de leurs mouvements ; cependant leur transcription a été omise dans certains cas : quand les ports de bras sont identiques à ceux du cinétogramme voisin, ou quand leur exécution dépend essentiellement du contexte.

Les mouvements de la tête sont parfois écrits à titre indicatif.

1. The first part of the document is a letter from the author to the editor of the journal. The letter discusses the author's interest in the topic and the reasons for writing the paper.

2. The second part of the document is the abstract of the paper. It provides a brief summary of the main findings and conclusions of the study.

3. The third part of the document is the introduction. It sets the context for the study and outlines the objectives and scope of the research.

4. The fourth part of the document is the literature review. It discusses the existing research on the topic and identifies the gaps that the current study aims to address.

5. The fifth part of the document is the methodology. It describes the research design, data collection methods, and statistical analyses used in the study.

6. The sixth part of the document is the results. It presents the findings of the study and discusses their implications for the field.

7. The seventh part of the document is the conclusion. It summarizes the main findings and provides recommendations for future research.

8. The eighth part of the document is the references. It lists the sources of information used in the study.

9. The ninth part of the document is the appendix. It contains supplementary information that supports the main text of the paper.

10. The tenth part of the document is the index. It provides a list of keywords and page numbers for easy navigation of the document.

Le Centre National d'écriture du Mouvement a été créé pour favoriser l'enseignement, la diffusion et l'application pratique de la Cinétographie Laban. Le CNEM est une association régie par la loi de 1901, présidée par Jacqueline Challet-Haas.

Des cours réguliers (niveaux élémentaire, intermédiaire, avancé) sont organisés à titre individuel ou dans le cadre du Cours de Danse de l'Université Paris-Sorbonne. Le CNEM est également présent lors de différents stages .

Le CNEM constitue un fonds de documents transcrits en Cinétographie Laban (partitions, variations des répertoires classique et contemporain, matériel pédagogique, danses folkloriques), d'ouvrages théoriques, de publications étrangères.

Le CNEM publie des manuels d'études de la Cinétographie ainsi que des cinétogrammes, présentés en recueils ou séparément.

Le CNEM est affilié à l'International Council of Kinetography Laban (ICKL) depuis sa création. Il entretient des rapports suivis avec de nombreux centres et, individuels à l'étranger.
